Taguig City, Metro Manila, Philippines

PROFESSIONAL SUMMARY

Multidisciplinary Software Engineer with experience in full-stack development, network engineering, cybersecurity, and IT infrastructure. Experienced in cloud deployment, networking, penetration testing, IoT, and end-to-end software solutions.

WORK EXPERIENCE

BigBoys Automation

Software Engineer Lead | 2025 – Present

- Lead software development initiatives and contribute to the design and implementation of full-stack applications. Develop and maintain software solutions using modern programming languages, frameworks, and databases.
- Design secure and reliable systems while integrating software, networking, and infrastructure components. Collaborate on technical architecture, deployment, troubleshooting, and system optimization.

Datatelcom System Communication

Technical IT Support | 2023 - Present

- Gained hands-on experience in network installation, configuration, troubleshooting, and maintenance. Worked with structured cabling, network equipment, routers, switches, and network infrastructure.
 - Learned and supported telephone and telecommunications systems, including installation, configuration, and troubleshooting. Assisted with the installation, configuration, and maintenance of CCTV surveillance systems.
 - Performed on-site technical support, diagnostics, and troubleshooting for networking, telephone, and security infrastructure. Developed practical knowledge of IT infrastructure, telecommunications, surveillance systems, and network operations through field experience.
-

EDUCATION

STI College Pasay-Edsa

Bachelor of Science in Computer Science
